The SafeWay Driving System®

Introduction to Corporate Driver Training

The SafeWay Driving System®

Hailed as one of the best driver training systems in America, the **SafeWay Driving System®** was created by one of the original pioneers of the driving instruction industry and perfected through four decades of training more than 200,000 drivers. The flexibility of the system consistently provides the best next-step to assessing and training drivers from beginners to advanced skill levels, while allowing for total customization to fit varying company needs. There are **five specific Corporate Training Programs** designed to fit your requirements:

① Driver Assessment

Keep your team of drivers up to speed by assessing and validating their performance behind the wheel. Corporations deploy our **Driver Assessment** package when they are concerned with corporate safety programs, risk assessment and risk mitigation. Whether utilized to insure the competency of an expatriate, international or professional driver, SafeWay's top instructors will assess, validate and improve their driving skills and provide you and your employee a digital SafeWay eReport immediately following the engagement. **Driver Assessment PLUS** includes the Driver Assessment, SafeWay eReport PLUS one hour of Private Driver Training to work on your drivers' specific Driver Improvement Recommendations.

② Private Driver Training

Private Driver Training is a personalized, one on one, in-car training package of either 2 or 4 hours used to improve specific skill sets requested by you and your driver. We utilize a specially equipped SafeWay Training Toyota Corolla where your driver will spend private training time with a certified and licensed SafeWay Training Professional who will work to improve their in-car performance. When purchased as a package or follow-up to our Driver Assessment, the trainer will work on your drivers' specific Driver Improvement Recommendations.

③ Driving Safety Course

The SafeWay Driving System corporate **Driving Safety Course** is designed for companies that want to improve their drivers' knowledge and awareness of the road in a short amount of time. Provided at our SafeWay Driving Center classrooms or in the convenience of your company location*, this two hour course covers everything necessary to provide your drivers with the latest driver safety information. When packaged with our Driver Assessment and two hour Private Driver Training, it makes for the perfect team driver skills program. **Driving Safety Course PLUS** includes our **Driver Assessment** service. *Location travel fee applies.

④ Defensive Driving Course

If you want to help your employees save money on their insurance or get out of traffic citations, you will want to sign them up for our **Defensive Driving Course**. It is a State-approved, six hour ticket dismissal class that is available at any of our convenient SafeWay Driving Center locations and is always led by one of our certified and licensed SafeWay training professionals. The Defensive Driving Course is also available at your location* for the 10% insurance discount, but your company must hold state classroom certification for ticket dismissal to be acknowledged by the courts. *Location travel fee applies.

⑤ Custom Corporate Training Programs

SafeWay Driving Centers has served the driver training needs of many of Texas' top companies. Whether you are looking for individual Driver Assessments to evaluate and validate your company drivers, Private Driver Training for delivery drivers to CEO's, or corporate group Driving Safety Courses and training programs, SafeWay is ready to take care of your organization's unique needs from 5 to 5000.
